Abu Dhabi (UAE), 16 maggio 2023 - Etihad Rail, sviluppatore e operatore della rete ferroviaria nazionale degli Emirati Arabi Uniti, e **Arsenale** S.p.A., società italiana di ospitalità di lusso, hanno firmato ad Abu Dhabi un Memorandum of Understanding (MoU) per lo sviluppo di un treno di lusso che opererà negli Emirati Arabi Uniti e si conetterà con il tempo a tutti i sei Stati del Golfo Persico (l'area del GCC, Consiglio di Cooperazione del Golfo). Questo è il secondo treno di lusso internazionale di **Arsenale**, dopo il recente annuncio del progetto The Dream of the Desert in Arabia Saudita. L'accordo è stato firmato da Sua Eccellenza Shadi Malak, CEO di Etihad Rail, e da **Paolo Barletta**, CEO di **Arsenale** S.p.A., durante la prima giornata di Middle East Rail. Middle East Rail è il più grande evento dedicato ai trasporti in tutto il Medio Oriente, Nord Africa e Asia meridionale. Riunisce i leader, i principali decision maker e i rappresentanti governativi per discutere i temi più urgenti del settore ferroviario, dei trasporti a livello globale e presentare le ultime innovazioni del

settore. Questo progetto consentirà ad **Arsenale** di accedere alla rete ferroviaria nazionale degli Emirati Arabi Uniti, che collega tutti gli emirati, nonché alla rete ferroviaria prevista nei sei stati del Golfo Persico riuniti nel GCC. L'accordo mira a fornire ai viaggiatori un'esperienza unica di crociera su rotaia, permettendo loro di scoprire la penisola mediorientale, dagli Emirati Arabi Uniti all'Oman e oltre. Il treno sarà composto da 15 carrozze di lusso che viaggeranno sulla rete di Etihad Rail. Il treno attraverserà le città cosmopolite di Abu Dhabi e Dubai, fino alle destinazioni naturalistiche di Fujairah, con le sue montagne a picco sul mare proprio al confine con l'Oman, e al deserto di Liwa con la sua oasi famosa in tutto il mondo, vicino alla stazione ferroviaria di Mezeira'a. Gli Emirati Arabi Uniti saranno tra i primi Paesi al mondo a disporre di un servizio di crociere di lusso con un treno completamente personalizzato. Sua Eccellenza Shadi Malak, CEO di Etihad Rail, ha dichiarato: "Questo accordo è in linea con l'impegno di

Etihad Rail di migliorare la qualità della vita dei cittadini degli Emirati Arabi Uniti e rafforza la nostra ambizione di fornire un'offerta ferroviaria competitiva in grado di soddisfare una gamma diversificata di esigenze, dal trasporto merci ai viaggi di lusso. Nell'ambito del nostro obiettivo di sviluppo di concetti ferroviari nuovi e innovativi negli Emirati, non vediamo l'ora di collaborare con **Arsenale** S.p.A per fornire una delle prime crociere di lusso al mondo a bordo di un treno in grado di offrire un'esperienza unica e piacevole ai passeggeri". **Paolo Barletta**, Amministratore Delegato di **Arsenale** S.p.A. ha aggiunto: "Siamo entusiasti di collaborare con Etihad Rail con un progetto unico che promuove la scoperta di un territorio magico ed emozionante al di fuori delle rinomate destinazioni di Abu Dhabi e Dubai. La crociera ferroviaria è il presente e il futuro del turismo e **Arsenale** vuole renderla disponibile nei luoghi più belli del mondo, introducendo questo nuovo modo di viaggiare affascinante e sostenibile. Siamo lieti di annunciare l'approdo di **Arsenale** nel

mercato del turismo degli Emirati Arabi Uniti. Questa partnership dimostra che non ci sono limiti alla passione e non ci sono barriere in grado di fermare la volontà di andare oltre l'immaginario. Voglio ringraziare Ethiad Rail e i tutti i suoi vertici, che hanno voluto credere in questo progetto fin dall'inizio. Con questa firma siamo pronti a lavorare senza sosta per consentire ai viaggiatori di salire presto a bordo del nostro treno, alla scoperta delle meraviglie naturali e del fascino del deserto degli Emirati Arabi Uniti". Con il completamento della rete di Etihad Rail, **Arsenale** inizierà la fase di produzione del treno, che sarà completamente personalizzato in omaggio alla cultura e al patrimonio emiratino. La produzione, l'artigianato, la qualità dei servizi di bordo, il design degli interni e il know-how saranno italiani e il marchio "Made in Italy" sarà la base su cui verrà sviluppato l'intero progetto. Le carrozze saranno completamente ristrutturate in fabbriche specializzate con sedi in Puglia e Sicilia, un impulso importante per l'industria italiana, sia per il turismo di lusso, sia per il settore ferroviari. L'accordo mira a fornire ai viaggiatori

un'esperienza unica di crociera su rotaia, permettendo loro di scoprire la penisola mediorientale, dagli Emirati Arabi Uniti all'Oman e oltre. Il treno sarà composto da 15 carrozze di lusso che viaggeranno sulla rete di Etihad Rail. Il treno attraverserà le città cosmopolite di Abu Dhabi e Dubai, fino alle destinazioni naturalistiche di Fujairah, con le sue montagne a picco sul mare proprio al confine con l'Oman, e al deserto di Liwa con la sua oasi famosa in tutto il mondo, vicino alla stazione ferroviaria di Mezeiraa. Gli Emirati Arabi Uniti saranno tra i primi Paesi al mondo a disporre di un servizio di crociere di lusso con un treno completamente personalizzato. Sua Eccellenza Shadi Malak, CEO di Etihad Rail, ha dichiarato: "Questo accordo è in linea con l'impegno di Etihad Rail di migliorare la qualità della vita dei cittadini degli Emirati Arabi Uniti e rafforza la nostra

## ETIHAD RAIL

Etihad Rail è stata fondata nel giugno 2009 per gestire lo sviluppo, la costruzione e il funzionamento della rete ferroviaria nazionale merci e passeggeri degli Emirati Arabi Uniti. La rete ferroviaria, una volta completata, sarà lunga 1.200 km e si estenderà dal confine con l'Arabia Saudita al confine con l'Oman collegando i centri abitati e i punti nevralgici per commercio, industria, manifattura, logistica degli Emirati Arabi Uniti.

La rete ferroviaria sarà costruita in più fasi:

- Stage One è pienamente operativa da gennaio 2016 e trasporta fino a 22.000 tonnellate di zolfo granulato ogni giorno da Habshan e Shah a Ruwais per conto di ADNOC.

- La fase due è ora completata e si estende dal confine con l'Arabia Saudita a Ghuwaifat, collegando gli Emirati via Abu Dhabi, KIZAD, Khalifa Port, Jebel Ali Port, Dubai, Sharjah, Ras al-Khaimah e da lì a Fujairah sulla costa orientale degli Emirati Arabi Uniti.

- La fase di costruzione 3 prevede l'estensione della rete di 279 km e dovrebbe servire il nord del paese e collegare Dubai, il porto di Saqr e Khor Fakkan alla rete ferroviaria. A metà

del 2018 la pianificazione per queste tratte è stata assegnata alla società di infrastrutture francese Egis con l'obiettivo di metterle in funzione nel 2024.

Etihad Rail ha inoltre firmato un accordo nel 2022 con Oman Rail per costruire e gestire una linea ferroviaria transfrontaliera di 303 km dal porto di Sohar nel Golfo di Oman via Al Ain fino alla rete ferroviaria degli Emirati Arabi Uniti ad Abu Dhabi.

Il costo del progetto è stimato in 3 miliardi di dollari. Per realizzare il progetto è stata fondata una società di progetto comune.

Il percorso servirà sia il traffico merci che quello passeggeri. I treni passeggeri dovrebbero viaggiare a velocità fino a 200 km/h, consentendo tempi di viaggio da Sohar ad Abu Dhabi di 1 ora e 40 minuti e da Sohar ad Al Ain in 47 minuti. I treni merci devono viaggiare fino a 120 km/h.

A luxury train service is set to bring a new golden age of rail travel to the UAE. The country's railway operator, Etihad Rail, and Italian luxury hospitality company **Arsenale** on Tuesday signed an agreement at Abu Dhabi's Middle East Rail conference to establish the service. A launch date was not revealed but the service, which has been called a "rail cruise", is expected to cross the UAE from Fujairah in the east down to the historic Liwa desert in Abu Dhabi. The train will consist of 15 luxury carriages and work on them is being undertaken in Puglia and Sicily, **Arsenale** said. It brings to mind the great railway journeys of yesteryear such as the famed Orient Express. More details are expected in the coming months but **Arsenale** said the carriages will reflect Emirati heritage, while the "production, craftsmanship, quality of on-board services, interior design and know-how will be Italian, and the 'made in Italy' signature branding will be the basis on which the entire project will be developed". It comes as developments on the UAE-wide railway network move

full steam ahead. The network was formally opened in February with a freight service now operating. A passenger service is also advancing rapidly. READ MORE Etihad Rail will enhance the UAE landscape It is **Arsenale**'s second international luxury train project following the recent announcement of The

Dream of the Desert project in Saudi Arabia. And it is envisaged the UAE service will eventually extend into the GCC. **Arsenale** is also planning to operate a luxury train service called "La Dolce Vita" in Italy. "We are thrilled to work together with Etihad Rail on this ground-breaking project that will promote the discovery of a magical and exciting territory outside of the renowned destinations of Abu Dhabi and Dubai," said **Paolo Barletta**, chief executive of **Arsenale**. "Railway cruising is the future of tourism and **Arsenale** wants to make it available in the world's most beautiful places, introducing this fascinating and sustainable new way of travelling," he said. "We are delighted to announce that UAE will be one of the first countries in the world to launch this unique service with us. I want to thank Etihad Rail for believing in this project since the beginning. With this signing, we are ready to work tirelessly to enable travellers to soon come on board of our train, discovering the enchanting natural wonders of UAE." More deals struck at rail event Etihad Rail signed seven agreements during the major transport event aimed at driving the development of its freight and passenger services. The national rail operator agreed partnerships with ride-hailing company Uber and drone cargo specialist, SkyGo. "The agreement with Uber is in line with Etihad Rail's efforts to improve the quality of life of people around the country, by supporting our ability to provide accessible transportation across the UAE, including in areas with limited accessibility," said Mr Malak. No further details were disclosed on the agreement with Uber. "With

SkyGo, we are collaborating on freight train drone inspection, utilising the company's technology to benefit from data services, and the agreement is yet another example of our drive to innovate, establish new processes, and build on our existing digitalisation efforts," added Mr Malek. Etihad Rail signed a 20-year partnership agreement with DHL Global Forwarding to set up a joint venture as part of the country's efforts to strengthen its freight network. Etihad Rail, the UAE National Rail Network developer and operator, has signed an agreement with Italian luxury hospitality company **Arsenale** to roll out "a luxury train experience that pays homage to Emirati culture and heritage." The luxury train will travel throughout the UAE towards the border with Oman, passing through Mezeira'a, along Liwa Desert and its famous oasis. It will extend to the wider GCC, once the GCC Railway is operational. This will be **Arsenale**'s second international luxury train project, following the recent announcement of The Dream of the Desert project in Saudi Arabia. PUBBLICITÀ The deal was signed in the presence of Lorenzo Fanara, Ambassador of Italy to the UAE, on the sidelines of the recently concluded two-day Middle East Rail Exhibition and Conference in Abu Dhabi, where Etihad Rail signed a total of seven agreements "further to drive the development of its freight and passenger services." ADVERTISEMENT Shadi Malak, CEO of Etihad Rail, said: "Our collaboration with **Arsenale** is a testament to Etihad

Rail's commitment to drive economic and social growth in the UAE through the National Rail Network. Advertisement "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world," he added. Fully customised train In a press statement, **Arsenale** said, "The UAE will be among the first countries in the world to have a luxury cruise service with a fully customised train." The train will consist of 15 luxury carriages that will pass through the cosmopolitan cities of Abu Dhabi and Dubai, to the nature destinations of Fujairah, with its sheer mountains right on the border with Oman, and the Liwa desert, with its world-famous oasis, near Mezeiraa train station. The carriages will be completely refurbished in specialised factories located in Puglia and Sicily, Italy. The production, craftsmanship, quality of onboard services, interior design and know-

how will be Italian, **Arsenale** noted. **Paolo Barletta**, CEO of **Arsenale SpA**, said: "We are thrilled to partner with Etihad Rail on a unique project that promotes the discovery of a magical and exciting territory outside the renowned destinations of Abu Dhabi and Dubai. "The railway cruise is the present and the future of tourism, and **Arsenale** wants to make it available in the most beautiful places in the world, introducing this new fascinating and sustainable way of travelling. This partnership demonstrates that there are no limits to passion and no barriers that can stop the desire to go beyond the imaginary." Other agreements Meanwhile, Etihad Rail also signed six other agreements at the 17th edition of Middle East Rail, including the establishment of a joint venture company with DHL Global Forwarding; an agreement with integrated logistics provider MICCO; an MoU with Morocco's national railway operator ONCF; an MoU with global technology company Uber; an MoU with drone cargo specialist SkyGo; and an agreement with the Fujairah Natural Resources

Corporation (FNRC), an independent government entity established to supervise and control mining facilities specialised in extracting natural resources in Fujairah. The National Rail Network, which was inaugurated in February this year, now links all emirates, connecting residential, industrial, and commercial centres with four key ports across the UAE.

## Etihad Rail partners with Italian firm **Arsenale** to launch luxury train service in the UAE

RIYADH: Travelers will have access to a luxury train service in the UAE after national railway network operator Etihad Rail partnered with Italian hospitality firm **Arsenale** Group in a move to boost tourism and showcase the country's heritage and scenic attractions. The firms signed a memorandum of understanding during the two-day Middle East Rail Exhibition and Conference in Abu Dhabi to roll out the 15-carriage transit option that will travel throughout the UAE toward the border with Oman. The project will see the Italian company completely refurbishing carriages in specialized factories located in Puglia and Sicily, Italy. The UAE will be among the first countries in the world to have a luxury cruise service with a fully customized train, **Arsenale** Group said in a press statement. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world," Shadi

Malak, CEO of Etihad Rail said.. There are plans to extend the service to the wider Gulf Cooperation Council region once the railway project becomes operational. This is **Arsenale**'s second project in the region after it signed an MoU with Saudi Arabia Railways in March to launch the Middle East's first luxury train service in the Kingdom. A part of the project "Dream of the Desert," the deal involves bringing a train with 40 luxury cabins on Saudi railways by 2025 that will pass through the country from Riyadh to Qurayyat. "The railway cruise is the present and the future of tourism, and **Arsenale** wants to make it available in the most beautiful places in the world, introducing this new fascinating and sustainable way of traveling. This partnership demonstrates that there are no limits to passion and no barriers that can stop the desire to go beyond the imaginary," said **Paolo Barletta**, CEO of **Arsenale**. During the conference, Etihad Rail signed a total of seven agreements to advance rail passenger and freight development.

The highly-anticipated Etihad Rail has announced it will offer ultra-luxury carriages, akin to the original Orient Express, for customers across the entire UAE. The national rail has teamed with Italian hospitality firm **Arsenale** on the project, for a luxurious rail experience right from Fujairah to the Liwa Desert in Abu Dhabi. 15 such carriages are being built in Italy to later send to the UAE. "Our collaboration with **Arsenale** is a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the National Rail Network," said Shadi Malak, chief executive of Etihad Rail, in statement released on Wednesday. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. "Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world." Bringing Orient Express expertise to the Gulf **Arsenale** has been entrusted with a similar project in Saudi Arabia, working with the Kingdom's

national rail on the 'Dream of the Desert' line, shooting ultra-luxury trains across the desert. The trains launch in 2025, taking travellers from Riyadh to Qurayyat, with AlUla along the way. Saudi Arabia Railways (SAR) signed a memorandum of understanding (MoU) with Italy's **Arsenale** Group, the latter of which develops the Orient Express in Italy. The project has a value of \$51 million in train manufacturing, and \$10 million in further investments in Italy. "We are thrilled to work together with Etihad Rail on this ground-breaking project that will promote the discovery of a magical and exciting territory outside of the renowned destinations of Abu Dhabi and Dubai," said **Paolo Barletta**, chief executive of **Arsenale**. "Railway cruising is the future of tourism and **Arsenale** wants to make it available in the world's most beautiful places, introducing this fascinating and sustainable new way of travelling," he said. "We are delighted to announce that UAE will be one of the first countries in the world to launch this unique service with us. I want to thank

Etihad Rail for believing in this project since the beginning. With this signing, we are ready to work tirelessly to enable travellers to soon come on board of our train, discovering the enchanting natural wonders of UAE." What is Etihad Rail?

## Etihad Rail signs seven agreements at Middle East Rail 2023

ETIHAD Rail (ER), operator of the United Arab Emirates (UAE) national rail network, has signed seven agreements furthering rail passenger and freight development at this week's Middle East Rail 2023. The exhibition and conference, hosted by ER at the Abu Dhabi National Exhibition Centre (ADNEC) for the second consecutive year in partnership with the UAE's Ministry of Energy and Infrastructure, the Department of Culture and Tourism and the GCC Railways Authority, welcomed over 10,000 attendees, including eight ministers from Europe, Britain, North Africa and the GCC, 300 exhibitors, and 600 VIPs, with 30 countries represented in total. The most significant of the agreements was a the finalising of a 20-year strategic partnership agreement with freight carrier DHL Global Forwarding to form a joint venture that will enable DHL to use Etihad Rail's network to conduct its main operations within the UAE. Under the terms of the agreement, DHL will adopt rail as one of its major modes of transport to distribute goods throughout

the country via the National Rail Network that links key industrial hubs. The agreement and the new joint venture's focus on rail is expected to significantly reduce pressure on road transport and boost trade, commerce and logistics in the UAE, while also playing a key role in helping the UAE meet its environmental commitments. Etihad Rail says it is committed to contributing to the UAE's Net Zero by 2050 programme, under which the UAE National Rail Network will help to reduce carbon emissions from road transport by 21% by 2050, with each freight train removing up to 300 trucks from the roads. "The UAE's increasing focus is on infrastructure investment in the logistics sector, and DHL Global Forwarding is excited to be part of this journey to support growing capacity requirements through rail freight," says DHL CEO Middle East and Africa, Mr Amadou Diallo. "Our decades of expertise in rail and multimodal transport solutions, providing fast, secure, and cost-effective connections, make us the right partner to support the development of the railway industry in

the UAE." "Etihad Rail is pleased to introduce further sustainable transport models within the UAE and continue to stimulate economic growth and sustained social development in the region," says CEO of Etihad Rail Freight, Mr Gottfried Eymmer. The other six agreements signed by ER at the event were expanded on by ER CEO Mr Shadi Malak, who delivered the keynote address at the Middle East Rail event, and comprised: a Memorandum of Understanding (MoU) with Italian luxury hospitality company **Arsenale** with the aim of establishing a luxury train experience in the UAE that will help to boost tourism and showcase the country's heritage and scenic attractions an agreement with MICCO, an integrated logistics provider and part of AD Ports Group, that will see the establishment of an intermodal freight solution "allowing customers to use their time and resources more efficiently and focus on their core objectives" an MoU with Moroccan National Railways (ONCF) to share knowledge and best practice as ER develops its network an MoU with global

technology company Uber helping to support ER's ability to provide accessible transport across the UAE, including in areas with limited accessibility an MoU with drone cargo specialist SkyGo to allow collaboration on freight train drone inspections, using the company's technology and enabling ER to benefit from its data services while showing the rail company's willingness to innovate, build on existing digitalisation efforts and establish new processes, and an agreement with the Fujairah Natural Resources Corporation (FNRC), an independent government entity established to supervise and control mining facilities specialising in the extraction of natural resources in Fujairah emirate.

La constructora de la red ferroviaria de Emiratos, Etihad Rail, ha firmado un acuerdo con la empresa italiana de hospitalidad de lujo **Arsenale** para lanzar "una experiencia de tren de lujo que rinde homenaje a la cultura y el patrimonio emiratí". El tren de lujo viajará por Emiratos Árabes Unidos hacia la frontera con Omán, pasando por Mezeira'a a través del desierto de Liwa y su espectacular oasis. Este será el segundo proyecto internacional de trenes de lujo de **Arsenale** en la región del golfo, luego del reciente anuncio del proyecto The Dream of the Desert en Arabia Saudita. PUBBLICITÀ El acuerdo se firmó durante la Exposición y Conferencia Ferroviaria de Medio Oriente en Abu Dhabi, donde Etihad Rail ratificó un total de siete acuerdos más, además de impulsar el desarrollo de sus servicios de carga y pasajeros. "Nuestra colaboración con **Arsenale** es un testimonio del compromiso de Etihad Rail de impulsar el crecimiento económico y social en Emiratos Árabes Unidos a través de la Red Ferroviaria Nacional", señaló Shadi Malak, CEO de Etihad Rail.

El tren constará de 15 vagones de lujo que pasarán por las cosmopolitas ciudades de Abu Dhabi y Dubai, hasta los destinos naturales de Fujairah, con sus escarpadas montañas justo en la frontera con Omán, y el desierto de Liwa con su mundialmente famoso oasis cerca de la estación de tren de Mezeira'a. Los vagones serán completamente renovados en fábricas especializadas ubicadas en Puglia y Sicilia, Italia. La producción, la artesanía, la calidad de los servicios a bordo, el diseño de interiores y el saber hacer serán italianos, señaló **Arsenale**. **Paolo Barletta**, CEO de **Arsenale SpA**, dijo: "Estamos encantados de asociarnos con Etihad Rail en un proyecto único que promueve el descubrimiento de un territorio mágico y emocionante fuera de los destinos de renombre de Abu Dhabi y Dubai. "El crucero ferroviario es el presente y el futuro del turismo, y **Arsenale** quiere que esté disponible en los lugares más hermosos del mundo, introduciendo esta nueva forma fascinante y sostenible de viajar. Esta asociación demuestra que

no hay límites para la pasión y no hay barreras que puedan detener el deseo de ir más allá de lo imaginario", agregó. Por su parte, Etihad Rail también firmó otros seis acuerdos en la 17.ª edición de Middle East Rail, incluido el establecimiento de una empresa conjunta con DHL Global Forwarding; un acuerdo con el proveedor de logística integrada MICCO; un memorando de entendimiento con el operador ferroviario nacional de Marruecos ONCF; un memorando de entendimiento con la empresa global de tecnología Uber; un memorando de entendimiento con el especialista en carga de drones SkyGo; y un acuerdo con la Corporación de Recursos Naturales de Fujairah (FNRC), una entidad gubernamental independiente establecida para supervisar y controlar las instalaciones mineras especializadas en la extracción de recursos naturales en Fujairah. La Red Ferroviaria Nacional, que se inauguró en febrero de este año, ahora une todos los emiratos, conectando centros residenciales, industriales y

comerciales con cuatro  
puertos clave en Emiratos.

Etihad Rail, the developer and operator of the UAE National Rail Network, concluded its participation at the 17th edition of Middle East Rail, the largest transport event in the region, today (May 17) in Abu Dhabi with the closing of seven major agreements. Hosted by Etihad Rail for the second consecutive year, the event was held under the patronage of Sheikh Mansour bin Zayed bin Sultan Al Nahyan, UAE Vice President, Deputy Prime Minister, and Minister of the Presidential Court, and in partnership with the Ministry of Energy and Infrastructure, the Department of Culture and Tourism, and GCC Railways Authority. The exhibition and conference welcomed over 10,000 attendees, including eight ministers from Europe, the UK, North Africa, and the GCC, 300 exhibitors, and 600 VIPs, with 30 countries represented in total. On the strategic deals, Etihad Rail said these were mainly aimed at driving the development of the rail freight and passenger services. The first agreement inked was for the establishment of a joint venture company with DHL

Global Forwarding - a division of Deutsche Post DHL that provides air and ocean freight forwarding services. The deal with the Germany-based group that undertakes major logistics projects under the brand name DHL Industrial, is mainly aimed at strengthening Etihad Rail's sustainable freight offering within the UAE. This was followed by an MoU with Italian luxury hospitality company **Arsenale** to establish a luxury train experience, in addition to a deal with MICCO, an integrated logistics provider and part of AD Ports Group as well as Uber. The other big deals signed at the event were with Morocco's national railway operator ONCF as well as drone cargo specialist SkyGo; and an agreement with the Fujairah Natural Resources Corporation (FNRC), an independent government entity established to supervise and control mining facilities specialised in extracting natural resources in Fujairah. Etihad Rail also had an active presence as part of the conference agenda, where Shadi Malak, its CEO, delivered a keynote address during the opening

ceremony of the event. "We are proud to have been the name host for Middle East Rail once again, which is aligned with the UAE leadership's vision, their recognition of the significant advantages of rail, and the importance of relying on trains for freight and passenger transportation," stated Malak. "This year's event was the largest on record, and we are delighted to build on our commitment to partnerships, participating alongside leading entities across the global railway sector," he added. Commenting on the agreements, Malak said: "These are testament to Etihad Rail's efforts to consistently identify partnerships that improve the effectiveness and efficiency of the UAE National Rail Network, as we strive to develop a country-wide network that serves the needs of the UAE and benefit customers in every sector and passengers across the country." "The joint venture with DHL Global Forwarding reinforces the reputation of Middle East Rail, with Etihad Rail as its sponsor, as a platform for forming commercial partnerships

with global companies for the benefit of the UAE. This partnership will strengthen our sustainable freight offering within the UAE, and further drive economic growth in the country," he stated. "We will work with ONCF - operators of one of the continent's oldest railways - on knowledge sharing and best practice learnings as we develop our network," he added. On the MICCO deal, Malak said it have a proven track record in the UAE, and this agreement will see the establishment of an intermodal freight solution. "As a result, our customers will be able to use their time and resources more efficiently, allowing them to focus on their core business objectives," he added. On its collaboration with **Arsenale**, Malak said it was a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the National Rail Network. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world" he stated. "The agreement with Uber is in line with Etihad Rail's efforts to

improve the quality of life of people around the country, by supporting our ability to provide accessible transportation across the UAE, including in areas with limited accessibility. We look forward to working closely with Uber and hope to benefit from their expertise in the global transportation space," he added. On its tie-up with drone cargo expert SkyGo, Malak said: "We are collaborating on freight train drone inspection, utilising the company's technology to benefit from data services, and the agreement is yet another example of our drive to innovate, establish new processes, and build on our existing digitalisation efforts." "Finally, the agreement with the FNRC reinforces our ability to offer our customers a comprehensive end-to-end solution that combines reliability, sustainability, and speed to market - and is, most importantly, competitive. By providing an integrated transportation service, we ensure our partners' supply chains, like FNRC, remain agile and adaptable," he added.-

Picture glamorous train carriages with Emirati and Italian designs. Get ready for an exciting new era of luxury travel in the UAE. Etihad Rail has partnered with Italian luxury hospitality company **Arsenale** to introduce a magnificent luxury train service that will redefine the way you explore the Emirates. We're talking about a "rail cruise" experience that will transport passengers from Fujairah in the east to the breathtaking Liwa desert in Abu Dhabi. With its 15 luxurious carriages, this remarkable train journey evokes the grandeur and elegance of legendary rail trips such as the renowned Orient Express. The carriages will be meticulously crafted in Puglia and Sicily, reflecting both Emirati heritage and Italian design expertise and ensuring an unparalleled travel experience. The introduction of this luxury train service also aligns perfectly with the ongoing development of the UAE-wide railway network. Etihad Rail has already opened the network for freight services and the passenger service is progressing rapidly. The luxury train experience

aims to boost the tourism sector and showcase the country's diverse heritage and natural beauty to visitors from around the globe. It also promises to evoke a similar sense of elegance and adventure. The UAE's venture into luxury rail travel follows a global trend of renewed interest in railway journeys, driven by the desire for sustainable travel and the convenience of avoiding airports. It's time to bid farewell to air travel and shift your gears to the right track. With a growing focus on sustainable travel and the allure of scenic rail routes, the introduction of a luxury train service in the UAE marks an exciting development for tourism and transportation. As plans for the Etihad Rail passenger service and other international rail projects progress, travellers can anticipate a bright future for rail travel that combines timeless charm with modern luxury. A luxury train service is set to bring a new golden age of rail travel to the UAE. The country's railway operator, Etihad Rail, and Italian luxury hospitality company **Arsenale** on Tuesday signed an agreement at Abu Dhabi's Middle East Rail conference to establish the service. A launch date was not revealed but the service, which has been called a "rail cruise", is expected to cross the UAE from Fujairah in the east down to the historic Liwa desert in Abu Dhabi. The train will consist of 15 luxury carriages and work on them is being undertaken in Puglia and Sicily, **Arsenale** said. It brings to mind the great railway journeys of yesteryear such as the famed Orient Express. More details are expected in the coming months but **Arsenale** said the carriages will reflect Emirati heritage, while the "production, craftsmanship, quality of on-board services, interior design and know-how will be Italian, and the 'made in Italy' signature branding will be the basis on which the entire project will be developed". It comes as developments on the UAE-wide railway network move full steam ahead. The

network was formally opened in February with a freight service now operating. A passenger service is also advancing rapidly. "Our collaboration with **Arsenale** is a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the National Rail Network," said Shadi Malak, chief executive of Etihad Rail, in statement released on Wednesday. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. "Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world." It is **Arsenale**'s second international luxury train project following the recent announcement of The Dream of the Desert project in Saudi Arabia. And it is envisaged the UAE service will eventually extend into the GCC. **Arsenale** is also planning to operate a luxury train service called "La Dolce Vita" in Italy. "We are thrilled to work together with Etihad Rail on this ground-breaking project that will promote the

discovery of a magical and exciting territory outside of the renowned destinations of Abu Dhabi and Dubai," said **Paolo Barletta**, chief executive of **Arsenale**. "Railway cruising is the future of tourism and **Arsenale** wants to make it available in the world's most beautiful places, introducing this fascinating and sustainable new way of travelling," he said. "We are delighted to announce that UAE will be one of the first countries in the world to launch this unique service with us. I want to thank Etihad Rail for believing in this project since the beginning. With this signing, we are ready to work tirelessly to enable travellers to soon come on board of our train, discovering the enchanting natural wonders of UAE." The Orient Express was established in 1883 and ran from Paris to Istanbul. It became synonymous with sophistication and glamour.

## Etihad Rail Is Bringing Orient Express-Style Luxury Trains To The UAE

Next station: Romantic railroad journeys chugging along through Abu Dhabi's Liwa desert, Fujairah's rugged mountains and beyond! Yes, the UAE's on track for an epic passenger train service resembling the fabled Orient Express. And we're sure the likeness to the glamorous train carriages (whose elegance Agatha Christie swore by) will be extremely close. That's because Etihad Rail has roped in luxury Italian hospitality company **Arsenale** to construct these elegant trains. The very same Arsenale who are part of the Orient Express' relaunch with fabulous new trains and scenic routes. Classic carriages Photo: Orient Express This exciting deal between Etihad Rail and **Arsenale** was struck during the Middle East Rail Conference in Abu Dhabi on May 17. There's no launch date yet, but we do know that there'll be 15 coaches with lavish interiors reflecting Emirati heritage. Gauging by the opulent images of **Arsenale's 'Orient Express La Dolce Vita'** set to launch in Italy, the upcoming UAE locomotives will have some loco features. Photo: Orient Express Expect plush

carpets, wood-panelled walls, and elegant dining cars with food and ambience to match Michelin-starred restaurants. Imagine high-tech comforts and grandeur of a fancy hotel suite on wheels. Golden era of rail travel Railroad travel is seeing a resurgence across the world. While it's a nostalgic throwback for regions like Europe, this mode of transport is just now gathering steam in the GCC where it's new. The UAE jumped on the wagon with the Dubai Metro, trams and monorail services and a 1,200km National Railway Network completed in February 2023. Etihad Rail passenger train Photo: Etihad Rail Passenger trains connecting all seven emirates to each other and Oman will roll out only in 2030. Then there's Saudi Arabia's luxury 'Dream of the Desert' trains (another Arsenale-helmed project). You bet we'll be daydreaming of these sophisticated new trains during our next rush-hour metro commute

A rede Etihad Rail é um sistema de transporte transformador nos Emirados Árabes Unidos, projetado para conectar as principais cidades e zonas industriais e serve como um elo vital para o crescimento econômico e a sustentabilidade do país. O mapa da Etihad Rail mostra uma extensa rede que se estende por mais de 1.200 quilômetros, conectando grandes centros urbanos como Abu Dhabi, Dubai e Al Ain, bem como centros industriais e portos. A linha férrea também se conectará a Omã e à Arábia Saudita, melhorando assim as capacidades logísticas e comerciais. Essa moderna infraestrutura ferroviária também ajudará a reduzir o congestionamento rodoviário, promovendo ainda mais a sustentabilidade ambiental. Com seus serviços eficientes e confiáveis, a rede Etihad Rail revoluciona o transporte nos Emirados Árabes Unidos, promovendo o desenvolvimento econômico e a conectividade em toda a região. Mapa ferroviário da Etihad A linha ferroviária que liga Abu Dhabi e Dubai foi unida em março de 2022 e posteriormente expandida

para incluir Ras Al Khaimah e Sharjah em outubro do mesmo ano. A linha abrange 256 quilômetros entre Abu Dhabi e Dubai e incorpora 29 pontes, 60 travessias e 137 canais de drenagem. Em Sharjah, a linha tem uma extensão de 45 quilômetros, enquanto a extensão de Ras Al Khaimah tem 5,7 quilômetros e liga o emirado às principais vias férreas do projeto. Os trens de passageiros operarão a velocidades de até 200 quilômetros por hora, conectando 11 cidades e regiões. Cada trem terá capacidade para aproximadamente 400 passageiros. Os vagões do trem serão equipados com comodidades como Wi-Fi, sistemas de entretenimento, pontos de carregamento e restaurantes. Diferentes opções de assentos, incluindo primeira classe, classe executiva e econômica, estarão disponíveis. O tempo de viagem entre Abu Dhabi e Dubai é estimado em cerca de 50 minutos, reduzindo significativamente o tempo de deslocamento. A viagem de Abu Dhabi a Fujairah levará aproximadamente 100 minutos. Veja: Etihad

Rail anuncia nova grande parceria Até 2030, o serviço ferroviário está projetado para transportar mais de 36 milhões de passageiros anualmente. Ele conectará os principais centros comerciais, áreas industriais, centros de fabricação, instalações de logística e os principais pontos de importação e exportação nos Emirados Árabes Unidos, formando parte integrante da rede ferroviária do GCC. Embora a rota possa sofrer acréscimos ou modificações no futuro, a Etihad Rail anunciou que 70% da rede já foi construída. O estágio um do projeto, um serviço de frete que conecta os campos de gás de Shah e Habshan a Ruwais, iniciou suas operações em 2016. Ele transporta até 22.000 toneladas de enxofre granulado diariamente para a Abu Dhabi National Oil Company. O estágio dois liga Ghuwaifat, no oeste, a Fujairah, no leste. As etapas de construção, também conhecidas como embalagens, estão representadas nos mapas. Etihad Rail 100% concluído Em março de 2023, foi anunciado que a Etihad Rail havia concluído com sucesso a Rede Ferroviária

Nacional dos Emirados Árabes Unidos, um grande projeto de 900 km que liga todos os sete emirados com uma ferrovia primária. A rede dos Emirados Árabes Unidos conectará quatro portos e centros de logística, servindo como parte vital de sua infraestrutura de transporte e logística. O anúncio da Etihad Rail disse que contará com um total de 593 pontes e travessias, uma frota de 38 locomotivas e seis túneis, conectando todos os sete emirados. Essa rede aumentará a competitividade do país e promoverá a união entre os emirados. Embora os serviços de trens de carga já estejam operacionais, os trens de passageiros serão introduzidos posteriormente. Etihad Rail faz parceria com o **Arsenale** Group da Itália para passeios de luxo. Na quinta-feira, a Etihad Rail e o grupo **Arsenale** fizeram uma parceria para lançar cruzeiros ferroviários de luxo para passageiros nos Emirados Árabes Unidos. Esses trens de luxo oferecerão um passeio panorâmico de Fujairah a Abu Dhabi, incluindo paradas em Dubai e visitas a Omã e ao deserto de Liwa, lembrando a icônica viagem no estilo Expresso do Oriente.

A luxury train service is set to bring a new golden age of rail travel to the UAE. The country's railway operator, Etihad Rail, and Italian luxury hospitality company **Arsenale** on Tuesday signed an agreement at Abu Dhabi's Middle East Rail conference to establish the service. A launch date was not revealed but the service, which has been called a "rail cruise", is expected to cross the UAE from Fujairah in the east down to the historic Liwa desert in Abu Dhabi. The train will consist of 15 luxury carriages and work on them is being undertaken in Puglia and Sicily, **Arsenale** said. It brings to mind the great railway journeys of yesteryear such as the famed Orient Express. More details are expected in the coming months but **Arsenale** said the carriages will reflect Emirati heritage, while the "production, craftsmanship, quality of on-board services, interior design and know-how will be Italian, and the 'made in Italy' signature branding will be the basis on which the entire project will be developed". It comes as developments on the UAE-wide railway network move

full steam ahead. The network was formally opened in February with a freight service now operating. A passenger service is also advancing rapidly. Etihad Rail and **Arsenale** signed the memorandum of understanding at Middle East Rail. Photo: **Arsenale** Etihad Rail and **Arsenale** signed the memorandum of understanding at Middle East Rail. Photo: **Arsenale** "Our collaboration with **Arsenale** is a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the National Rail Network," said Shadi Malak, chief executive of Etihad Rail, in statement released on Wednesday. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. "Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world." READ MORE Etihad Rail will enhance the UAE landscape It is **Arsenale**'s second international luxury train project following the recent announcement of The

Dream of the Desert project in Saudi Arabia. And it is envisaged the UAE service will eventually extend into the GCC. **Arsenale** is also planning to operate a luxury train service called "La Dolce Vita" in Italy. "We are thrilled to work together with Etihad Rail on this ground-breaking project that will promote the discovery of a magical and exciting territory outside of the renowned destinations of Abu Dhabi and Dubai," said **Paolo Barletta**, chief executive of **Arsenale**. "Railway cruising is the future of tourism and **Arsenale** wants to make it available in the world's most beautiful places, introducing this fascinating and sustainable new way of travelling," he said. "We are delighted to announce that UAE will be one of the first countries in the world to launch this unique service with us. I want to thank Etihad Rail for believing in this project since the beginning. With this signing, we are ready to work tirelessly to enable travellers to soon come on board of our train, discovering the enchanting natural wonders of UAE." OBB, Austria's national rail operator, for example is launching new sleeper cars on its services across Europe. Other European railway operators are planning similar initiatives. More deals struck at rail event Etihad Rail signed seven agreements during the major transport event aimed at driving the development of its freight and passenger services. The national rail operator agreed partnerships with ride-hailing company Uber and drone cargo specialist, SkyGo. "The agreement with Uber is in line with Etihad Rail's efforts to improve the quality of life of people around the country, by supporting our ability to provide accessible transportation across the UAE, including in areas with limited accessibility," said Mr Malak. No further details were disclosed on the agreement with Uber. "With

SkyGo, we are collaborating on freight train drone inspection, utilising the company's technology to benefit from data services, and the agreement is yet another example of our drive to innovate, establish new processes, and build on our existing digitalisation efforts," added Mr Malek. Etihad Rail signed a 20-year partnership agreement with DHL Global Forwarding to set up a joint venture as part of the country's efforts to strengthen its freight network. The joint venture will enable DHL to use Etihad Rail's network to conduct its main operations within the UAE, Etihad Rail said in statement on Tuesday. Etihad Rail, the UAE National Rail Network developer and operator, has signed an agreement with Italian luxury hospitality company **Arsenale** to roll out "a luxury train experience that pays homage to Emirati culture and heritage." The luxury train will travel throughout the UAE towards the border with Oman, passing through Mezeira'a, along Liwa Desert and its famous oasis. It will extend to the wider GCC, once the GCC Railway is operational. This will be **Arsenale**'s second international luxury train project, following the recent announcement of The Dream of the Desert project in Saudi Arabia. PUBBLICITÀ The deal was signed in the presence of Lorenzo Fanara, Ambassador of Italy to the UAE, on the sidelines of the recently concluded two-day Middle East Rail Exhibition and Conference in Abu Dhabi, where Etihad Rail signed a total of seven agreements "further to drive the development of its freight and passenger services." ADVERTISEMENT Shadi Malak, CEO of Etihad Rail, said: "Our collaboration with **Arsenale** is a testament to Etihad

Rail's commitment to drive economic and social growth in the UAE through the National Rail Network. Advertisement "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world," he added. Fully customised train In a press statement, **Arsenale** said, "The UAE will be among the first countries in the world to have a luxury cruise service with a fully customised train." The train will consist of 15 luxury carriages that will pass through the cosmopolitan cities of Abu Dhabi and Dubai, to the nature destinations of Fujairah, with its sheer mountains right on the border with Oman, and the Liwa desert, with its world-famous oasis, near Mezeiraa train station. The carriages will be completely refurbished in specialised factories located in Puglia and Sicily, Italy. The production, craftsmanship, quality of onboard services, interior design and know-

how will be Italian, **Arsenale** noted. **Paolo Barletta**, CEO of **Arsenale SpA**, said: "We are thrilled to partner with Etihad Rail on a unique project that promotes the discovery of a magical and exciting territory outside the renowned destinations of Abu Dhabi and Dubai. "The railway cruise is the present and the future of tourism, and **Arsenale** wants to make it available in the most beautiful places in the world, introducing this new fascinating and sustainable way of travelling. This partnership demonstrates that there are no limits to passion and no barriers that can stop the desire to go beyond the imaginary." Other agreements Meanwhile, Etihad Rail also signed six other agreements at the 17th edition of Middle East Rail, including the establishment of a joint venture company with DHL Global Forwarding; an agreement with integrated logistics provider MICCO; an MoU with Morocco's national railway operator ONCF; an MoU with global technology company Uber; an MoU with drone cargo specialist SkyGo; and an agreement with the Fujairah Natural Resources

Corporation (FNRC), an independent government entity established to supervise and control mining facilities specialised in extracting natural resources in Fujairah. The National Rail Network, which was inaugurated in February this year, now links all emirates, connecting residential, industrial, and commercial centres with four key ports across the UAE.

RIYADH: Travelers will have access to a luxury train service in the UAE after national railway network operator Etihad Rail partnered with Italian hospitality firm **Arsenale** Group in a move to boost tourism and showcase the country's heritage and scenic attractions. The firms signed a memorandum of understanding during the two-day Middle East Rail Exhibition and Conference in Abu Dhabi to roll out the 15-carriage transit option that will travel throughout the UAE toward the border with Oman. The project will see the Italian company completely refurbishing carriages in specialized factories located in Puglia and Sicily, Italy. The UAE will be among the first countries in the world to have a luxury cruise service with a fully customized train, **Arsenale** Group said in a press statement. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world," Shadi

Malak, CEO of Etihad Rail said.. There are plans to extend the service to the wider Gulf Cooperation Council region once the railway project becomes operational. This is **Arsenale**'s second project in the region after it signed an MoU with Saudi Arabia Railways in March to launch the Middle East's first luxury train service in the Kingdom. A part of the project "Dream of the Desert," the deal involves bringing a train with 40 luxury cabins on Saudi railways by 2025 that will pass through the country from Riyadh to Qurayyat. "The railway cruise is the present and the future of tourism, and **Arsenale** wants to make it available in the most beautiful places in the world, introducing this new fascinating and sustainable way of traveling. This partnership demonstrates that there are no limits to passion and no barriers that can stop the desire to go beyond the imaginary," said **Paolo Barletta**, CEO of **Arsenale**. During the conference, Etihad Rail signed a total of seven agreements to advance rail passenger and freight development.

Luxury passenger train carriages will run along the UAE's Etihad Rail line between Fujairah and the Liwa desert in Abu Dhabi as part of a new agreement with Italy's **Arsenale** Group. The agreement, signed on Tuesday between Etihad Rail CEO Shadi Malak and **Arsenale** CEO **Paolo Barletta**, is expected to bring an Orient Express-style service within the Gulf country and later extend throughout the GCC. PUBBLICITÀ For the latest headlines, follow our Google News channel online or via the app. **Arsenale** is behind The **Orient Express La Dolce Vita** project, which is expected to begin taking passengers across Italy in 2024. "In the presence of H.E Lorenzo Fanara, Ambassador of Italy to the UAE, #EtihadRail signed an MoU with **Arsenale**, an Italian luxury hospitality company, to establish a luxury train experience," an online statement said. "Through this agreement, Etihad Rail will contribute to driving economic and social growth and boosting the tourism sector in the UAE," it added. "By providing a luxurious train travel experience, we provide a unique global model for the

region, contribute to supporting the national tourism sector, and will also be able to highlight the country's diverse heritage and beauty to visitors from all over the world..." Shadi Malak, CEO of Etihad Rail was quoted as saying by the state-run WAM news agency. "As part of our work to introduce new and innovative railway concepts to the UAE, we look forward to partnering with **Arsenale** S.p.A to provide one of the first luxury train cruises in the world, ensuring a unique and enjoyable passenger experience," Malak said in a statement shared with Al Arabiya English. The 15 luxury coaches will feature designs from Emirati culture and will be built in the south of Italy. The train, once operational, will travel through Abu Dhabi and Dubai, extending to Fujairah, with a mountain view overlooking the sea, towards the border with Oman, and passing through Mezeira'a and the Liwa Desert, Etihad Rail confirmed in a statement to Al Arabiya English. Etihad Rail signed seven MoUs at the Middle East Rail Conference in Abu Dhabi, including with **Arsenale**.

Global cargo company DHL and ride-hailing service Uber were among the companies with which the UAE rail firm signed agreements. **Arsenale** also signed an MoU with Saudi Arabia Railway (SAR) to launch a luxury train service - titled 'The Dream of the Desert' in the Kingdom this week, making the Etihad Rail agreement the Italian company's second international luxury train project. The highly-anticipated Etihad Rail has announced it will offer ultra-luxury carriages, akin to the original Orient Express, for customers across the entire UAE. The national rail has teamed with Italian hospitality firm **Arsenale** on the project, for a luxurious rail experience right from Fujairah to the Liwa Desert in Abu Dhabi. 15 such carriages are being built in Italy to later send to the UAE. "Our collaboration with **Arsenale** is a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the National Rail Network," said Shadi Malak, chief executive of Etihad Rail, in statement released on Wednesday. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. "Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world." Bringing Orient Express expertise to the Gulf **Arsenale** has been entrusted with a similar project in Saudi Arabia, working with the Kingdom's

national rail on the 'Dream of the Desert' line, shooting ultra-luxury trains across the desert. The trains launch in 2025, taking travellers from Riyadh to Qurayyat, with AlUla along the way. Saudi Arabia Railways (SAR) signed a memorandum of understanding (MoU) with Italy's **Arsenale** Group, the latter of which develops the Orient Express in Italy. The project has a value of \$51 million in train manufacturing, and \$10 million in further investments in Italy. "We are thrilled to work together with Etihad Rail on this ground-breaking project that will promote the discovery of a magical and exciting territory outside of the renowned destinations of Abu Dhabi and Dubai," said **Paolo Barletta**, chief executive of **Arsenale**. "Railway cruising is the future of tourism and **Arsenale** wants to make it available in the world's most beautiful places, introducing this fascinating and sustainable new way of travelling," he said. "We are delighted to announce that UAE will be one of the first countries in the world to launch this unique service with us. I want to thank

ETIHAD Rail (ER), operator of the United Arab Emirates (UAE) national rail network, has signed seven agreements furthering rail passenger and freight development at this week's Middle East Rail 2023. The exhibition and conference, hosted by ER at the Abu Dhabi National Exhibition Centre (ADNEC) for the second consecutive year in partnership with the UAE's Ministry of Energy and Infrastructure, the Department of Culture and Tourism and the GCC Railways Authority, welcomed over 10,000 attendees, including eight ministers from Europe, Britain, North Africa and the GCC, 300 exhibitors, and 600 VIPs, with 30 countries represented in total. The most significant of the agreements was a the finalising of a 20-year strategic partnership agreement with freight carrier DHL Global Forwarding to form a joint venture that will enable DHL to use Etihad Rail's network to conduct its main operations within the UAE. Under the terms of the agreement, DHL will adopt rail as one of its major modes of transport to distribute goods throughout

the country via the National Rail Network that links key industrial hubs. The agreement and the new joint venture's focus on rail is expected to significantly reduce pressure on road transport and boost trade, commerce and logistics in the UAE, while also playing a key role in helping the UAE meet its environmental commitments. Etihad Rail says it is committed to contributing to the UAE's Net Zero by 2050 programme, under which the UAE National Rail Network will help to reduce carbon emissions from road transport by 21% by 2050, with each freight train removing up to 300 trucks from the roads. "The UAE's increasing focus is on infrastructure investment in the logistics sector, and DHL Global Forwarding is excited to be part of this journey to support growing capacity requirements through rail freight," says DHL CEO Middle East and Africa, Mr Amadou Diallo. "Our decades of expertise in rail and multimodal transport solutions, providing fast, secure, and cost-effective connections, make us the right partner to support the development of the railway industry in

the UAE." "Etihad Rail is pleased to introduce further sustainable transport models within the UAE and continue to stimulate economic growth and sustained social development in the region," says CEO of Etihad Rail Freight, Mr Gottfried Eymmer. The other six agreements signed by ER at the event were expanded on by ER CEO Mr Shadi Malak, who delivered the keynote address at the Middle East Rail event, and comprised: a Memorandum of Understanding (MoU) with Italian luxury hospitality company **Arsenale** with the aim of establishing a luxury train experience in the UAE that will help to boost tourism and showcase the country's heritage and scenic attractions an agreement with MICCO, an integrated logistics provider and part of AD Ports Group, that will see the establishment of an intermodal freight solution "allowing customers to use their time and resources more efficiently and focus on their core objectives" an MoU with Moroccan National Railways (ONCF) to share knowledge and best practice as ER develops its network an MoU with global

technology company Uber helping to support ER's ability to provide accessible transport across the UAE, including in areas with limited accessibility an MoU with drone cargo specialist SkyGo to allow collaboration on freight train drone inspections, using the company's technology and enabling ER to benefit from its data services while showing the rail company's willingness to innovate, build on existing digitalisation efforts and establish new processes, and an agreement with the Fujairah Natural Resources Corporation (FNRC), an independent government entity established to supervise and control mining facilities specialising in the extraction of natural resources in Fujairah emirate.

## Etihad Rail to launch luxury train experience connecting Abu Dhabi, Dubai, Fujairah, and Oman

Etihad Rail, the UAE National Rail Network developer and operator, has signed an agreement with Italian luxury hospitality company **Arsenale** to roll out "a luxury train experience that pays homage to Emirati culture and heritage." The luxury train will travel throughout the UAE towards the border with Oman, passing through Mezeira'a, along Liwa Desert and its famous oasis. It will extend to the wider GCC, once the GCC Railway is operational. This will be **Arsenale**'s second international luxury train project, following the recent announcement of The Dream of the Desert project in Saudi Arabia. The deal was signed in the presence of Lorenzo Fanara, Ambassador of Italy to the UAE, on the sidelines of the recently concluded two-day Middle East Rail Exhibition and Conference in Abu Dhabi, where Etihad Rail signed a total of seven agreements "further to drive the development of its freight and passenger services." Shadi Malak, CEO of Etihad Rail, said: "Our collaboration with **Arsenale** is a testament to Etihad Rail's commitment to drive economic and social growth

in the UAE through the National Rail Network. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world," he added. FULLY CUSTOMISED TRAIN In a press statement, **Arsenale** said, "The UAE will be among the first countries in the world to have a luxury cruise service with a fully customised train." The train will consist of 15 luxury carriages that will pass through the cosmopolitan cities of Abu Dhabi and Dubai, to the nature destinations of Fujairah, with its sheer mountains right on the border with Oman, and the Liwa desert, with its world-famous oasis, near Mezeiraa train station. The carriages will be completely refurbished in specialised factories located in Puglia and Sicily, Italy. The production, craftsmanship, quality of onboard services, interior design and know-how will be Italian, **Arsenale** noted. **Paolo Barletta**, CEO of

**Arsenale SpA**, said: "We are thrilled to partner with Etihad Rail on a unique project that promotes the discovery of a magical and exciting territory outside the renowned destinations of Abu Dhabi and Dubai. "The railway cruise is the present and the future of tourism, and **Arsenale** wants to make it available in the most beautiful places in the world, introducing this new fascinating and sustainable way of travelling. This partnership demonstrates that there are no limits to passion and no barriers that can stop the desire to go beyond the imaginary." OTHER AGREEMENTS Meanwhile, Etihad Rail also signed six other agreements at the 17th edition of Middle East Rail, including the establishment of a joint venture company with DHL Global Forwarding; an agreement with integrated logistics provider MICCO; an MoU with Morocco's national railway operator ONCF; an MoU with global technology company Uber; an MoU with drone cargo specialist SkyGo; and an agreement with the Fujairah Natural Resources Corporation (FNRC), an independent government

entity established to supervise and control mining facilities specialised in extracting natural resources in Fujairah. The National Rail Network, which was inaugurated in February this year, now links all emirates, connecting residential, industrial, and commercial centres with four key ports across the UAE.

La constructora de la red ferroviaria de Emiratos, Etihad Rail, ha firmado un acuerdo con la empresa italiana de hospitalidad de lujo **Arsenale** para lanzar "una experiencia de tren de lujo que rinde homenaje a la cultura y el patrimonio emiratí". El tren de lujo viajará por Emiratos Árabes Unidos hacia la frontera con Omán, pasando por Mezeira'a a través del desierto de Liwa y su espectacular oasis. Este será el segundo proyecto internacional de trenes de lujo de **Arsenale** en la región del golfo, luego del reciente anuncio del proyecto The Dream of the Desert en Arabia Saudita. PUBBLICITÀ El acuerdo se firmó durante la Exposición y Conferencia Ferroviaria de Medio Oriente en Abu Dhabi, donde Etihad Rail ratificó un total de siete acuerdos más, además de impulsar el desarrollo de sus servicios de carga y pasajeros. "Nuestra colaboración con **Arsenale** es un testimonio del compromiso de Etihad Rail de impulsar el crecimiento económico y social en Emiratos Árabes Unidos a través de la Red Ferroviaria Nacional", señaló Shadi Malak, CEO de Etihad Rail.

El tren constará de 15 vagones de lujo que pasarán por las cosmopolitas ciudades de Abu Dhabi y Dubai, hasta los destinos naturales de Fujairah, con sus escarpadas montañas justo en la frontera con Omán, y el desierto de Liwa con su mundialmente famoso oasis cerca de la estación de tren de Mezeira'a. Los vagones serán completamente renovados en fábricas especializadas ubicadas en Puglia y Sicilia, Italia. La producción, la artesanía, la calidad de los servicios a bordo, el diseño de interiores y el saber hacer serán italianos, señaló **Arsenale**. **Paolo Barletta**, CEO de **Arsenale SpA**, dijo: "Estamos encantados de asociarnos con Etihad Rail en un proyecto único que promueve el descubrimiento de un territorio mágico y emocionante fuera de los destinos de renombre de Abu Dhabi y Dubai. "El crucero ferroviario es el presente y el futuro del turismo, y **Arsenale** quiere que esté disponible en los lugares más hermosos del mundo, introduciendo esta nueva forma fascinante y sostenible de viajar. Esta asociación demuestra que

no hay límites para la pasión y no hay barreras que puedan detener el deseo de ir más allá de lo imaginario", agregó. Por su parte, Etihad Rail también firmó otros seis acuerdos en la 17.ª edición de Middle East Rail, incluido el establecimiento de una empresa conjunta con DHL Global Forwarding; un acuerdo con el proveedor de logística integrada MICCO; un memorando de entendimiento con el operador ferroviario nacional de Marruecos ONCF; un memorando de entendimiento con la empresa global de tecnología Uber; un memorando de entendimiento con el especialista en carga de drones SkyGo; y un acuerdo con la Corporación de Recursos Naturales de Fujairah (FNRC), una entidad gubernamental independiente establecida para supervisar y controlar las instalaciones mineras especializadas en la extracción de recursos naturales en Fujairah. La Red Ferroviaria Nacional, que se inauguró en febrero de este año, ahora une todos los emiratos, conectando centros residenciales, industriales y

comerciales con cuatro  
puertos clave en Emiratos.

Abu Dhabi | A luxury train service is set to usher in a new golden age of rail travel in the UAE. The agreement in this regard was signed by the country's railway operator Etihad Rail and Italian luxury hospitality company **Arsenale** at the Middle East Rail Conference. Called a rail cruise, the service is planned to run east from Fujairah to Abu Dhabi's historic Liwa Desert. The train will have 15 luxury coaches. Arsenal said work was underway in Puglia and Sicily. The luxury train is designed in a way reminiscent of the olden railway journeys like the famous Orient Express. But Arsenal said the carts would reflect the Emirati heritage. No further details of the vehicle have been released. The production, craftsmanship, quality of on-board services and interior design will be Italian..and the entire project will be developed based on the Made in Italy signature branding. The luxury carriage also comes at a time when the railway network is going full steam ahead in the UAE. The current cargo service was officially opened in February. Passenger service is also progressing rapidly.

Etihad Rail Chief Executive Shadi Malak said in a statement that the collaboration with Arsenal is a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the national rail network. This is Arsenal's second international luxury train project following the announcement of The Dream of the Desert project in Saudi Arabia.

Etihad Rail, the developer and operator of the UAE National Rail Network, concluded its participation at the 17th edition of Middle East Rail, the largest transport event in the region, today (May 17) in Abu Dhabi with the closing of seven major agreements. Hosted by Etihad Rail for the second consecutive year, the event was held under the patronage of Sheikh Mansour bin Zayed bin Sultan Al Nahyan, UAE Vice President, Deputy Prime Minister, and Minister of the Presidential Court, and in partnership with the Ministry of Energy and Infrastructure, the Department of Culture and Tourism, and GCC Railways Authority. The exhibition and conference welcomed over 10,000 attendees, including eight ministers from Europe, the UK, North Africa, and the GCC, 300 exhibitors, and 600 VIPs, with 30 countries represented in total. On the strategic deals, Etihad Rail said these were mainly aimed at driving the development of the rail freight and passenger services. The first agreement inked was for the establishment of a joint venture company with DHL

Global Forwarding - a division of Deutsche Post DHL that provides air and ocean freight forwarding services. The deal with the Germany-based group that undertakes major logistics projects under the brand name DHL Industrial, is mainly aimed at strengthening Etihad Rail's sustainable freight offering within the UAE. This was followed by an MoU with Italian luxury hospitality company **Arsenale** to establish a luxury train experience, in addition to a deal with MICCO, an integrated logistics provider and part of AD Ports Group as well as Uber. The other big deals signed at the event were with Morocco's national railway operator ONCF as well as drone cargo specialist SkyGo; and an agreement with the Fujairah Natural Resources Corporation (FNRC), an independent government entity established to supervise and control mining facilities specialised in extracting natural resources in Fujairah. Etihad Rail also had an active presence as part of the conference agenda, where Shadi Malak, its CEO, delivered a keynote address during the opening

ceremony of the event. "We are proud to have been the name host for Middle East Rail once again, which is aligned with the UAE leadership's vision, their recognition of the significant advantages of rail, and the importance of relying on trains for freight and passenger transportation," stated Malak. "This year's event was the largest on record, and we are delighted to build on our commitment to partnerships, participating alongside leading entities across the global railway sector," he added. Commenting on the agreements, Malak said: "These are testament to Etihad Rail's efforts to consistently identify partnerships that improve the effectiveness and efficiency of the UAE National Rail Network, as we strive to develop a country-wide network that serves the needs of the UAE and benefit customers in every sector and passengers across the country." "The joint venture with DHL Global Forwarding reinforces the reputation of Middle East Rail, with Etihad Rail as its sponsor, as a platform for forming commercial partnerships

with global companies for the benefit of the UAE. This partnership will strengthen our sustainable freight offering within the UAE, and further drive economic growth in the country," he stated. "We will work with ONCF - operators of one of the continent's oldest railways - on knowledge sharing and best practice learnings as we develop our network," he added. On the MICCO deal, Malak said it have a proven track record in the UAE, and this agreement will see the establishment of an intermodal freight solution. "As a result, our customers will be able to use their time and resources more efficiently, allowing them to focus on their core business objectives," he added. On its collaboration with **Arsenale**, Malak said it was a testament to Etihad Rail's commitment to drive economic and social growth in the UAE through the National Rail Network. "By establishing a luxury train experience, we are introducing a unique world-class offering to the region and contributing to boosting the tourism sector in the UAE. Furthermore, we will be able to showcase the country's diverse heritage and beauty to visitors from around the world" he stated. "The agreement with Uber is in line with Etihad Rail's efforts to

improve the quality of life of people around the country, by supporting our ability to provide accessible transportation across the UAE, including in areas with limited accessibility. We look forward to working closely with Uber and hope to benefit from their expertise in the global transportation space," he added. On its tie-up with drone cargo expert SkyGo, Malak said: "We are collaborating on freight train drone inspection, utilising the company's technology to benefit from data services, and the agreement is yet another example of our drive to innovate, establish new processes, and build on our existing digitalisation efforts." "Finally, the agreement with the FNRC reinforces our ability to offer our customers a comprehensive end-to-end solution that combines reliability, sustainability, and speed to market - and is, most importantly, competitive. By providing an integrated transportation service, we ensure our partners' supply chains, like FNRC, remain agile and adaptable," he added.-

## Mapa ferroviário da Etihad Rail: Dentro da rede ferroviária de US\$ 3 bilhões dos Emirados Arabes Unidos

LINK: <https://bloginformandoedetnando.com.br/noticias/destaques/mapa-ferroviario-da-etihad-dentro-da-rede-ferroviaria-de-us-3-bilhoes-dos-emirado...>

A rede Etihad Rail é um sistema de transporte transformador nos Emirados Árabes Unidos, projetado para conectar as principais cidades e zonas industriais e serve como um elo vital para o crescimento econômico e a sustentabilidade do país. O mapa da Etihad Rail mostra uma extensa rede que se estende por mais de 1.200 quilômetros, conectando grandes centros urbanos como Abu Dhabi, Dubai e Al Ain, bem como centros industriais e portos. A linha férrea também se conectará a Omã e à Arábia Saudita, melhorando assim as capacidades logísticas e comerciais. Essa moderna infraestrutura ferroviária também ajudará a reduzir o congestionamento rodoviário, promovendo ainda mais a sustentabilidade ambiental. Com seus serviços eficientes e confiáveis, a rede Etihad Rail revoluciona o transporte nos Emirados Árabes Unidos, promovendo o desenvolvimento econômico e a conectividade em toda a região. Mapa ferroviário da Etihad A linha ferroviária que liga Abu Dhabi e Dubai foi unida em março de 2022 e posteriormente expandida

para incluir Ras Al Khaimah e Sharjah em outubro do mesmo ano. A linha abrange 256 quilômetros entre Abu Dhabi e Dubai e incorpora 29 pontes, 60 travessias e 137 canais de drenagem. Em Sharjah, a linha tem uma extensão de 45 quilômetros, enquanto a extensão de Ras Al Khaimah tem 5,7 quilômetros e liga o emirado às principais vias férreas do projeto. Os trens de passageiros operarão a velocidades de até 200 quilômetros por hora, conectando 11 cidades e regiões. Cada trem terá capacidade para aproximadamente 400 passageiros. Os vagões do trem serão equipados com comodidades como Wi-Fi, sistemas de entretenimento, pontos de carregamento e restaurantes. Diferentes opções de assentos, incluindo primeira classe, classe executiva e econômica, estarão disponíveis. O tempo de viagem entre Abu Dhabi e Dubai é estimado em cerca de 50 minutos, reduzindo significativamente o tempo de deslocamento. A viagem de Abu Dhabi a Fujairah levará aproximadamente 100 minutos. Veja: Etihad

Rail anuncia nova grande parceria Até 2030, o serviço ferroviário está projetado para transportar mais de 36 milhões de passageiros anualmente. Ele conectará os principais centros comerciais, áreas industriais, centros de fabricação, instalações de logística e os principais pontos de importação e exportação nos Emirados Árabes Unidos, formando parte integrante da rede ferroviária do GCC. Embora a rota possa sofrer acréscimos ou modificações no futuro, a Etihad Rail anunciou que 70% da rede já foi construída. O estágio um do projeto, um serviço de frete que conecta os campos de gás de Shah e Habshan a Ruwais, iniciou suas operações em 2016. Ele transporta até 22.000 toneladas de enxofre granulado diariamente para a Abu Dhabi National Oil Company. O estágio dois liga Ghuwaifat, no oeste, a Fujairah, no leste. As etapas de construção, também conhecidas como embalagens, estão representadas nos mapas. Etihad Rail 100% concluído Em março de 2023, foi anunciado que a Etihad Rail havia concluído com sucesso a Rede Ferroviária

Nacional dos Emirados Árabes Unidos, um grande projeto de 900 km que liga todos os sete emirados com uma ferrovia primária. A rede dos Emirados Árabes Unidos conectará quatro portos e centros de logística, servindo como parte vital de sua infraestrutura de transporte e logística. O anúncio da Etihad Rail disse que contará com um total de 593 pontes e travessias, uma frota de 38 locomotivas e seis túneis, conectando todos os sete emirados. Essa rede aumentará a competitividade do país e promoverá a união entre os emirados. Embora os serviços de trens de carga já estejam operacionais, os trens de passageiros serão introduzidos posteriormente. Etihad Rail faz parceria com o **Arsenale** Group da Itália para passeios de luxo. Na quinta-feira, a Etihad Rail e o grupo **Arsenale** fizeram uma parceria para lançar cruzeiros ferroviários de luxo para passageiros nos Emirados Árabes Unidos. Esses trens de luxo oferecerão um passeio panorâmico de Fujairah a Abu Dhabi, incluindo paradas em Dubai e visitas a Omã e ao deserto de Liwa, lembrando a icônica viagem no estilo Expresso do Oriente.
